PROFESSIONAL SUMMARY

Motivated Computer Science Engineering student with hands-on experience in Java, Web Development, and Database Management. Built real-world projects spanning machine learning-based network security and full-stack employee management systems. Seeking an entry-level Software Developer role to apply strong problem-solving skills and deliver efficient, well-structured code in a collaborative team environment.

TECHNICAL SKILLS

Programming Languages	Java
Web Technologies	HTML, CSS, JavaScript
Backend	JDBC
Database	MySQL, SQL
Tools	Git, GitHub, VS Code, IntelliJ IDEA
Concepts	OOPs, Problem Solving, Basic DSA

PROJECTS

DDoS Attack Detection System

Python • Machine Learning • Gradient Boosting • Pandas • Scikit-learn

Developed a machine learning-based system to detect DDoS attacks in live network traffic using the Gradient Boosting algorithm. Handled end-to-end pipeline including data preprocessing, feature engineering, model training, and prediction analysis — achieving high detection accuracy on real-world datasets.

Employee Management System

Java • MySQL • HTML • CSS • JDBC

Built a full-stack Employee Management System to manage employee records, attendance, salary, and reporting. Implemented complete CRUD operations — add, update, search, and delete — with a responsive user-friendly interface connected to a MySQL backend via JDBC.

EDUCATION

B.E. Computer Science and Engineering	2022 – 2026
N.S.N College of Engineering and Technology CGPA: 7.5	
HSC (12th Grade)	2021 – 2022
Cheran Matriculation Higher Secondary School 70%	
SSLC (10th Grade)	2020 – 2021
Cheran Matriculation Higher Secondary School 68%	

CERTIFICATIONS

- Full Stack Frontend Certification — Hash Start Academy
- Full Stack Backend Certification — Apex Seekers

SOFT SKILLS

Problem Solving • Communication • Teamwork • Adaptability

LANGUAGES

Tamil • English
